DETAILED ACTION

Allowable Subject Matter

Claims 1-22 and 34-44 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 forms of record. With respect to claims 1, 12 and 34, the cited prior art does not anticipate or make obvious, *inter alia*, applying an electrical potential between the wafer and an electrode immersed in the electrolyte until the under-layer is exposed in the field surrounding the feature and removing the under-layer from the field surrounding the feature using selective etching or gentle chemical-mechanical polishing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
